Design India **Forward Forum**

Accelerate your BIM Journey

Cities like Ahmedabad are spearheading India's transformative infrastructure growth as the landscape of urban development is evolving at an unprecedented pace. With the focus on creating livable spaces for the people and big-ticket events like the Commonwealth Games 2030 and others set to be hosted by the city, Ahmedabad provides an unparalleled opportunity in the infrastructure sector.

This progress, however, brings new and complex challenges for design and construction teams who must navigate tighter project timelines, enhance cross-discipline coordination, and meet rising expectations for transparency, traceability, and sustainability.

Ahmedabad's ambitious expansion, supported by robust investments in metro networks, roadways, and urban amenities, demands innovative approaches to project delivery and governance. With a focus on sustainable urbanization, integrating cutting-edge technologies, and balancing rapid development with environmental stewardship, the focus is on are shaping the future of smart, resilient, and livable cities.

Team Marksmen Network's Design India Forward forum, presented by Autodesk will bring together architects, engineers, consultants and project leaders among other notable players to explore how Autodesk's connected ecosystem can help firms modernize design workflows- from planning to handover on time whilst ensuring the highest quality standards.

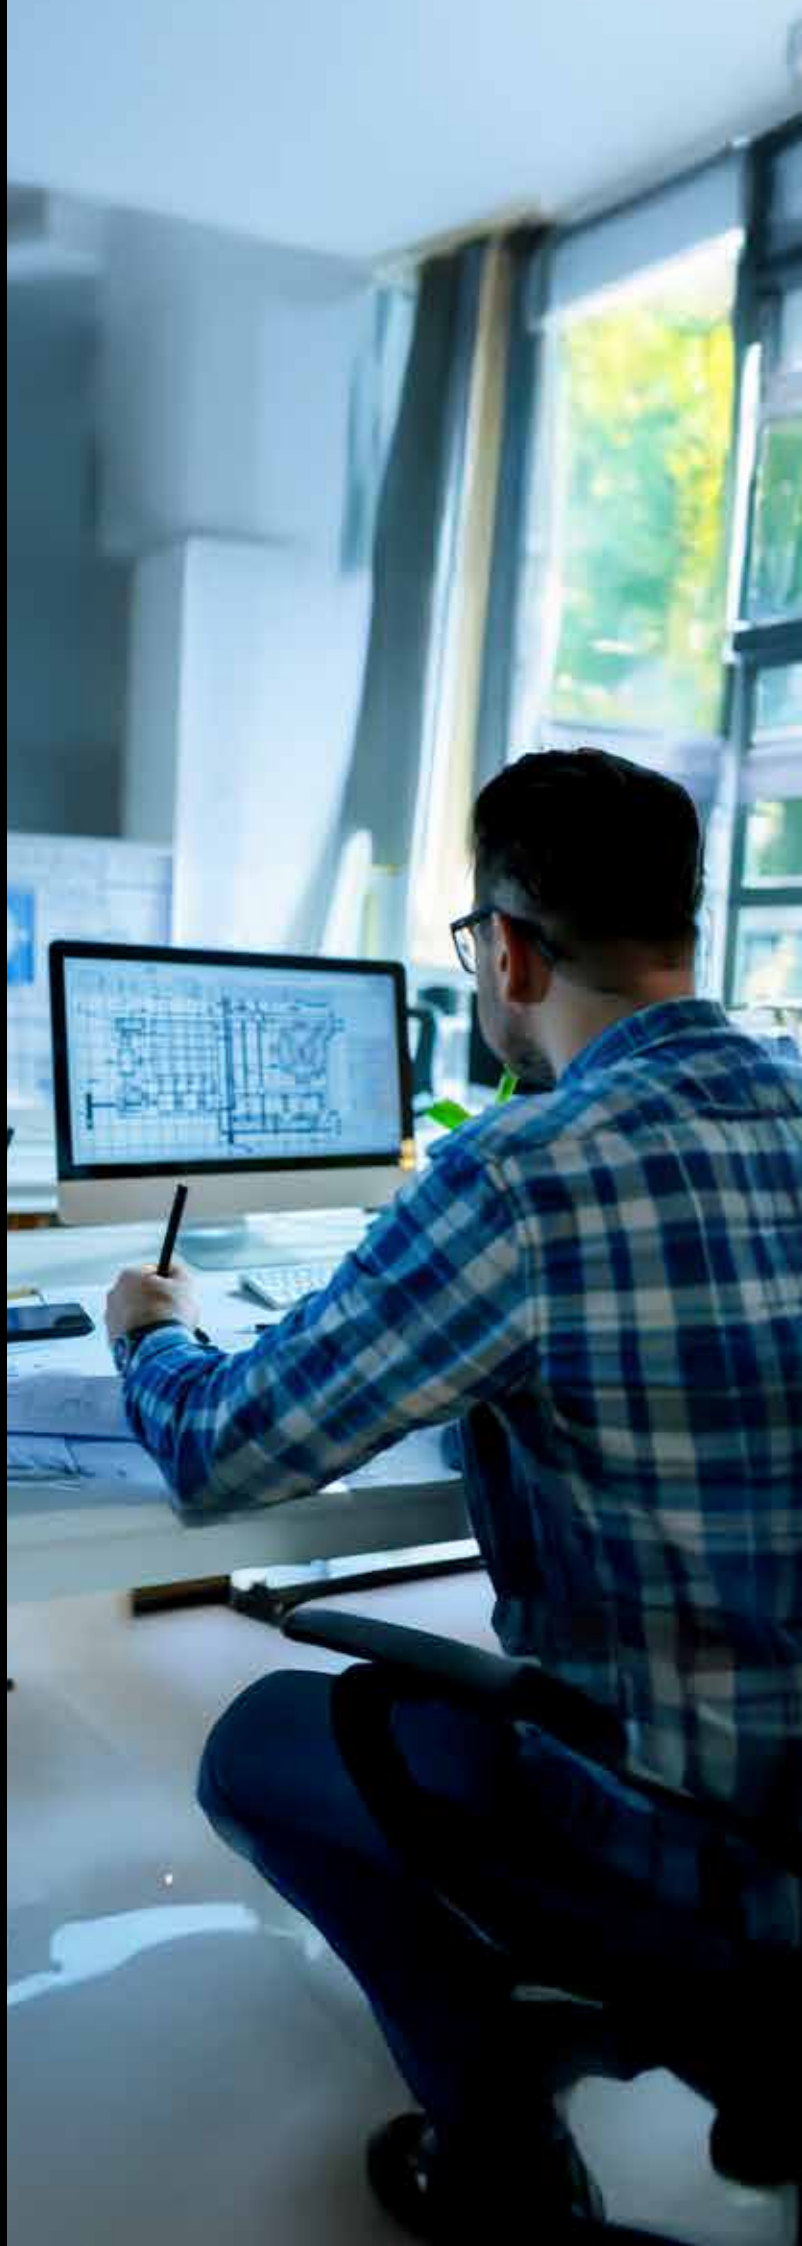

Who should attend?

- Head/GM/Director of Engineering & Design of firms
- Design Leads and Managers
- Architects
- BIM Managers
- VDC consultants and Designers
- Contractors
- Real Estate Owners

Why you should attend?

- Gain Actionable insights on accelerating your 2D to BIM transition.
- Understand best practices for collaboration and version control with Common Data Environment.
- Hands-on view of the BIM Package for Viksit Bharat.
- Stories from Indian firms already delivering with BIM.
- Peer connections with industry leaders shaping Ahmedabad's next growth story

Agenda

TIME	SESSION
8:45- 9:45 AM	Registration and Networking Breakfast
9:45- 10:00 AM	Welcome Remarks and Opening Address
10:00- 10:15 AM	Design India Forward- Connecting Vision to Delivery: India's shift from 2D to BIM and its role in smarter and faster project delivery
10:15- 11:30 AM	Panel Discussion: Unlocking Design Potential: The Future of BIM Adoption in India's Infrastructure Landscape • How BIM helps to ensure enhanced project efficiency • BIM's role in improving Coordination and Clash Detection • Cost Savings and Resource Optimisation • Sustainability Integration
11:30- 11:45 AM	Autodesk Solution Showcase- India Country Kit
11:45- 12:15 PM	Autodesk Customer Showcase
12:15- 12:45 PM	Q&A session
12:45 PM onwards	Networking Lunch
