

 **19<sup>th</sup> December 2025 | Surat**

# **Design India** **Forward Forum**

**Accelerate your BIM Journey**

Cities like **Surat** are at the forefront of India's transformative infrastructure growth as the landscape of urban development evolves at an unprecedented pace. With a strong focus on creating people-centric, future-ready urban spaces—and with major developments such as the **Surat Diamond Bourse, expanded textile and industrial hubs**, and large-scale smart city projects—Surat presents unparalleled opportunities within the infrastructure and construction ecosystem.

This progress, however, introduces new and complex challenges for design and construction teams, who must navigate tighter project timelines, strengthen cross-discipline coordination, and meet rising expectations around transparency, traceability, and sustainability.

Surat's ambitious expansion, powered by robust investments in **metro networks, road infrastructure, riverfront developments, housing projects, and urban amenities**, demands modernized approaches to project delivery and governance. With a continued emphasis on **sustainable urbanization, adoption of advanced technologies, and balancing rapid development with environmental responsibility**, Surat is shaping the future of smart, resilient, and highly livable cities.

Team Marksmen Network's **Design India Forward** forum, presented by Autodesk, will bring together architects, engineers, consultants, and project leaders—along with other key stakeholders—to explore how Autodesk's connected ecosystem can empower firms to modernize design workflows, from planning to handover, ensuring timely execution while upholding the highest quality standards.

## Who should attend?

- Head/GM/Director of Engineering & Design of firms
- Design Leads and Managers
- Architects
- BIM Managers
- VDC consultants and Designers
- Contractors
- Real Estate Owners

## Why you should attend?

- Gain Actionable insights on accelerating your 2D to BIM transition.
- Understand best practices for collaboration and version control with Common Data Environment.
- Hands-on view of the BIM Package for Viksit Bharat.
- Stories from Indian firms already delivering with BIM.
- Peer connections with industry leaders shaping surat's next growth story

## Agenda

Time	Session
8:45 – 9:45 AM	Registration and Networking Breakfast
9:45 – 10:00 AM	Chief Guest's Address:
10:00 – 10:15 AM	<b>Design India Forward</b> – Connecting Vision to Delivery: India's shift from 2D to BIM and its role in smarter and faster project delivery
10:15 – 11:30 AM	<b>Panel Discussion:</b> <i>Unlocking Design Potential: The Future of BIM Adoption in India's Infrastructure Landscape</i> <ul style="list-style-type: none"><li>• How BIM helps ensure enhanced project efficiency</li><li>• BIM's role in improving Coordination and Clash Detection</li><li>• Cost Savings and Resource Optimisation</li><li>• Sustainability Integration</li></ul>
11:30 – 12.15 PM	<b>Autodesk Solution Showcase &amp; Autodesk India Country Kit</b>
12.15 – 12:30 PM	<b>Autodesk Construction Cloud Overview</b>
12:30 PM onwards	<b>Networking Lunch</b>
