 **12th June 2026 | Novotel Visakhapatnam Varun Beach**

Sustainable Design Forum

Accelerate your construction journey
with a sustainable process

Overview

The Autodesk Sustainable Design Forum – Visakhapatnam Edition successfully concluded on 12th June 2026 at Novotel Visakhapatnam Varun Beach bringing together leading architects, engineers, infrastructure developers, consultants, BIM specialists, and construction professionals to explore the future of sustainable project delivery through digital transformation.

As Visakhapatnam continues to emerge as one of India's fastest-growing infrastructure and urban development hubs, the forum provided a timely platform to discuss how Building Information Modeling (BIM), connected construction technologies, and collaborative digital workflows can help organizations address increasing project complexity, improve efficiency, and achieve sustainability goals.

Key Takeaways

- **Digital Transformation is No Longer Optional**
- **Collaboration Drives Better Outcomes**
- **Sustainability and Technology Must Work Together**
- **BIM Adoption Continues to Accelerate**
- **Regional Markets Are Driving Innovation**

The event commenced with a welcome address by **Karthik Vazrala**, Business Manager – TS & AP, MicroGenesis, followed by the **Chief Guest address by Dharmender Varada**, Chairman, CREDAI Visakhapatnam, who emphasized the growing significance of digital transformation in shaping the future of real estate and infrastructure development.

A keynote session by Autodesk explored **India's transition from traditional 2D workflows to Building Information Modeling (BIM)**, highlighting its benefits in enhancing project visibility, improving collaboration, accelerating decision-making, mitigating risks, and delivering better project outcomes.

One of the forum's key attractions was the panel discussion, **"Unlocking Design Potential: The Future of BIM Adoption in India's Infrastructure Landscape."** Industry experts shared valuable perspectives on how BIM is driving project efficiency, improving coordination and clash detection, optimizing costs and resources, and enabling sustainable design practices across the infrastructure sector.

The **Autodesk Solution Showcase & India Country Kit** provided attendees with practical insights into Autodesk's latest technologies, including connected construction workflows, Common Data Environments (CDE), BIM implementation strategies, and solutions tailored to the Indian market.

The event concluded with a networking session that facilitated meaningful interactions among industry professionals, fostering knowledge exchange, collaboration opportunities, and discussions on the future of digital transformation in the AEC industry.
