OVERVIEW

Over the decades and years, AI has set an excellent example of experimental Technology evolving into a strategic business imperative. While enterprises are investing aggressively in AI and cloud infrastructure, the true differentiator lies beneath the surface—the robust infrastructure that powers them. From ready data centres and high-performance networking to sovereign cloud, cybersecurity, energy efficiency, and intelligent operations, enterprise AI demands an entirely new digital foundation.

India stands at the forefront of a digital revolution, with companies across sectors embracing digital transformation at an unprecedented pace. Organisations across sectors are leveraging cutting-edge technologies to revolutionise their operations. Cloud computing, artificial intelligence, Internet of Things (IoT), and big data analytics are at the forefront, driving innovation and efficiency.

This technological revolution has catalysed an unprecedented demand for robust data centre infrastructure and cloud services. As India stands at the junction of a digital revolution, with companies across sectors embracing digital transformation at an unprecedented pace. Enterprises across domains are not just investing massively in AI and potential cloud infrastructures but are also leveraging cutting-edge technologies to revolutionise their operations. Cloud computing, artificial intelligence, Internet of Things (IoT), and big data analytics are at the forefront, driving innovation and efficiency. This technological revolution has catalysed an unprecedented demand for robust data centre infrastructure and cloud services.

A server room with rows of server racks. The scene is dimly lit with a strong blue and red light effect, creating a sense of depth and technology. The racks are filled with various components, and the floor is dark and reflective.

ABOUT THE CONCLAVE:

NTT GDC presents The Inner Circle co-powered by Team Marksmen Network, a strategic leadership dialogue exchange forum that aims to bring together CIOs, CTOs, CDOs and digital leaders to explore whether today's enterprise infrastructure is equipped for tomorrow's AI economy and what investments are essential to remain competitive. This landmark event will bring together the entire IT infrastructure ecosystem on a single platform, fostering dialogue, innovation, and collaboration.

AGENDA

Time	Agenda Segment	Led By / Notes
17:00 – 18:15	The Executive Leadership Dialogue- Redefining Infrastructure Imperative for Enterprise AI	8-10 CXOs – wish list provided by NTT GDC
18:30 – 19:00	Registrations	25 pax – wish list provided by NTT GDC
19:00-19:15	Welcome Address	NTT GDC Senior Leadership
19:15-20:00	Panel Discussion: Theme (TBC) (Beyond AI Adoption- Is Your Digital Infrastructure Ready for the Next Decade?)	4 or 5 Customer Panelists + 1 NTT Data
20:00-20:30	Customer Spotlight	NTT Customer Success Story
20:30 – 20:45	NTT GDC Closing Note & Feedback	Summary & Thank-you
20:45 onwards	Networking dinner	

** This is a draft agenda and is subject to changes*
