SUPPLY CHAIN
& LOGISTICS
CONCLAVE 2025
4TH EDITION

SEAMLESS, SUSTAINABLE, SMART

THE NEXT ERA OF **SUPPLY CHAINS**

JUNE | DELHI

Brought to you by

DRIVING EFFICIENCY AND INNOVATION

The supply chain and logistics sector is a cornerstone of India's burgeoning economy, facilitating the seamless movement of goods and services across the nation and beyond. In 2024, the Indian logistics market was valued at approximately USD 317.3 billion and is projected to grow to USD 484 billion by 2029, reflecting a compound annual growth rate (CAGR) of 8.8%. Despite this impressive growth, logistics costs in India account for about 14% of the country's Gross Domestic Product (GDP), which is higher than the global average. This underscores the critical need for efficiency and innovation in the sector. The **SUPPLY CHAIN AND LOGISTICS CONCLAVE 2025** aims to address these challenges by bringing together industry leaders, policymakers, and innovators to discuss strategies for building a more resilient, efficient, and sustainable supply chain ecosystem in India.

The **SUPPLY CHAIN AND LOGISTICS CONCLAVE 2025** offers a unique platform for stakeholders across the supply chain spectrum to converge, share insights, and collaborate on solutions to the industry's most pressing challenges. This year's conclave will delve into topics such as digital transformation, sustainable logistics practices, the role of artificial intelligence and automation, and strategies to enhance supply chain and logistics resilience. Participants will gain access to cutting-edge research, case studies, and the opportunity to engage with thought leaders who are shaping the future of logistics in India.

PAST EDITIONS

Over the past three years, the **SUPPLY CHAIN AND LOGISTICS CONCLAVE** has established itself as a premier event in the industry. Each edition has been groundbreaking, featuring renowned industry leaders and offering practical solutions to the sector's most pressing issues. Attendees have benefited from a diverse range of topics, from digital transformation to sustainability in supply chain logistics. The increasing participation reflects the growing importance and interest in this critical sector. Building on this success, the 2025 conclave is set to expand further, bringing together a wider audience, a broader scope of topics, and more opportunities for networking and collaboration.
