**Amisha Vora**

Managing ownership data for over 33 million shareholders across 128 countries is a complex responsibility. For me, accuracy, accessibility, and data security remain our top priorities. The trust our stakeholders place in us is built on clear processes, responsible use of technology, and the expertise of our people.

**ANAND RAMAKRISHNAN**

Managing Director, Equiniti India

In today's dynamic landscape, I feel it is important for leaders to let go of archaic practices. What worked in the past may not work in the future, and continuous evolution is the key to moving ahead.

**SHAILENDRA SHUKLA**

I believe persistence is essential for every leader. The consistency with which you show up and stay committed plays a powerful role in shaping your career growth.

**MAYANK KUMAR**

It's important to move away from the belief that India is lagging. This is India's moment, and we must seize it with confidence and commitment.

**ROHIT PATHAK**

I believe leaders must unlearn anything that compromises honesty and integrity. When you truly walk the talk, it aligns your team, strengthens your culture, and unites the entire organization.
